

THE SCHNEIDER GROUP: FACTS & FIGURES

We plan and coordinate the carriage of goods between Switzerland, Europe, the Far East and the USA. Our know-how in the freight forwarding industry is converted seamlessly into value-added logistical services, which we can provide in any location or in our own EU logistics centre.

Schneider stands for quality, competence and reliability. Special requirements and out-of-the-ordinary needs are in good hands with us, as we see every customer and every need as unique.

We call our logistics platform in the French border-town of Saint-Louis "Europlateforme" for good reason, as it is located at the heart of western Europe, in the borderlands of France, Germany and Switzerland. Ideally situated, it serves as a platform for international groupage freight as well as for the Europe-wide distribution of goods. At the same time, we can provide not only simple warehousing, but also customised logistics services at our Europlateforme. We can take care of all kinds of customs formalities, and for interested customers can also act as their tax representative for France.

EUROPLATEFORME STATISTICS

Total storage area	6,200 m ²
High-shelf warehouse:	
pallet places	6,800
Secure warehousing	180 m ²
Chemical and hazardous goods warehousing	1,000 m ²
Cold warehouse	180 m ²
Cold warehouse: pallet places	190
Ground floor height	7 m
Basement height	4.50 m
Number of ramps	10

SCHNEIDER
International Freight Forwarding and Logistics

EUROPLATEFORME SERVICES

Europlateforme enables us to serve our customers from a multifunctional warehousing and distribution terminal, ideal for all types of warehousing and contract logistics. It is suitable as a transit facility and bonded warehouse, and is also a central platform for goods distribution throughout Europe. Our Europlateforme team will compile a tailor-made offer for the services desired in line with our customers' wishes.

The proximity of the border makes it possible to process customs formalities, both for the EU and Switzerland, extremely efficiently and flexibly.

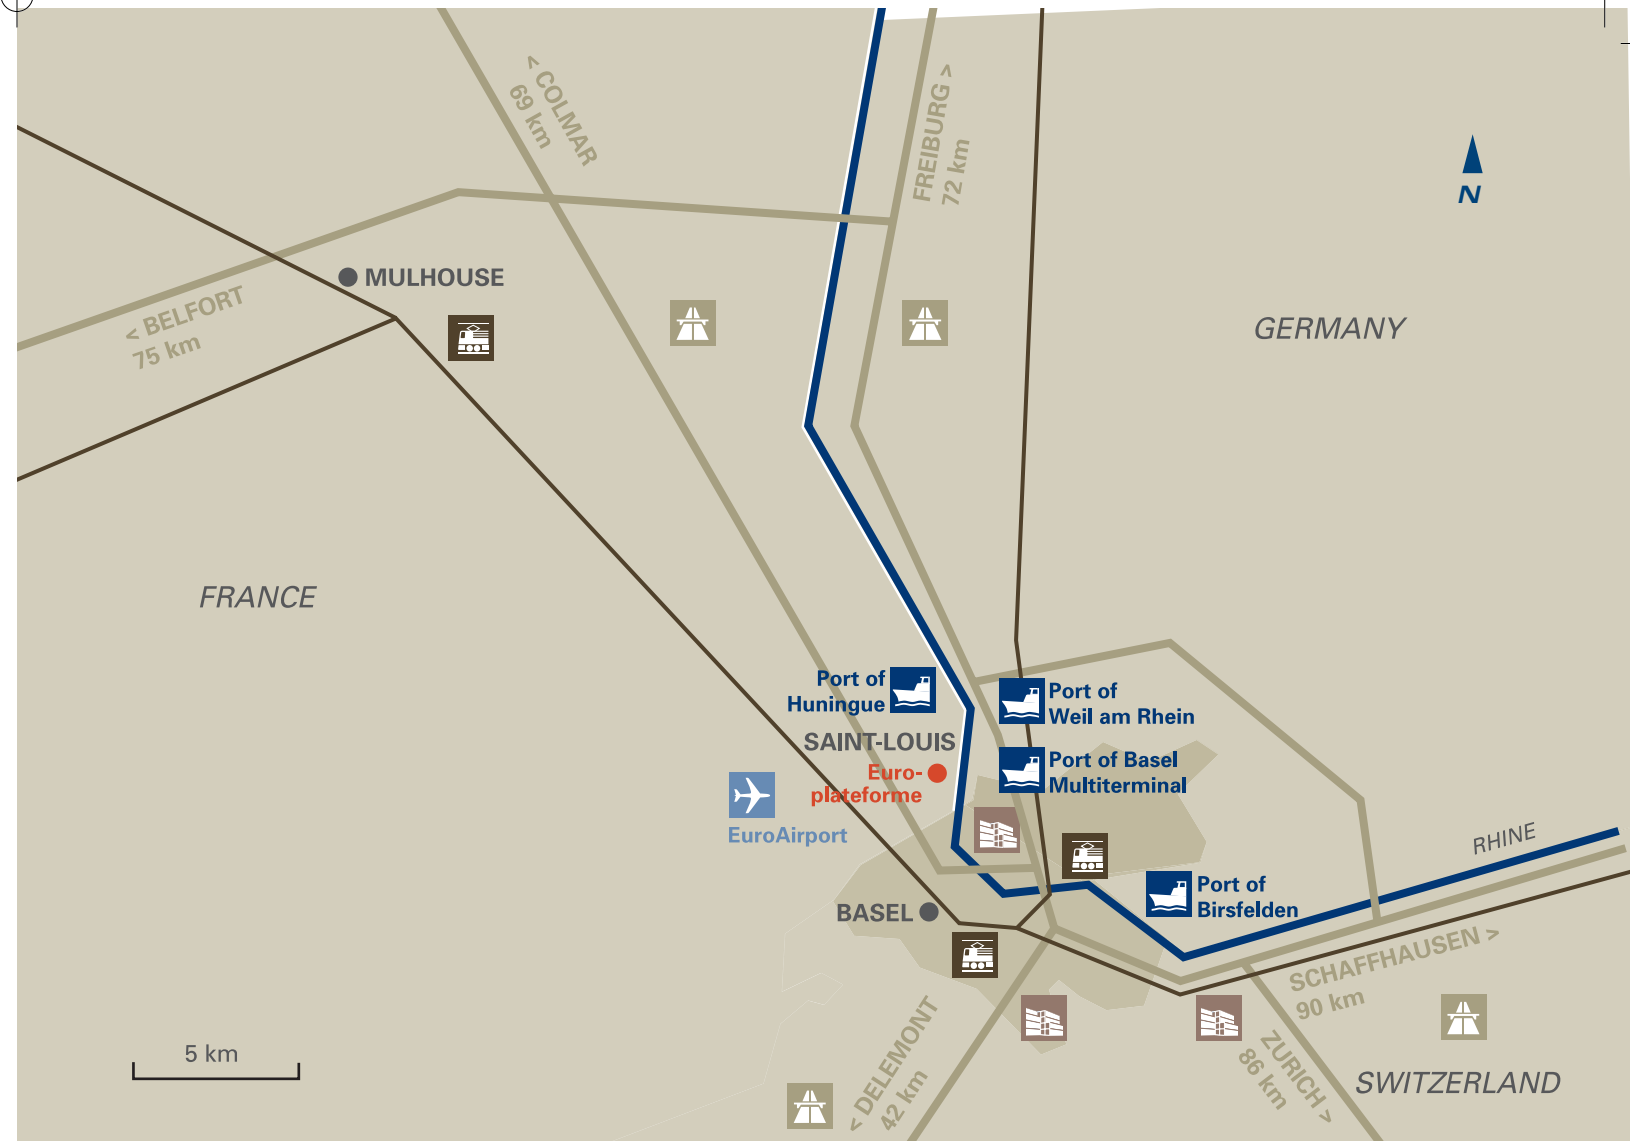

Europlateforme offers the possibility of establishing an operations centre for your own business without having to take on your own personnel. It is also possible to rent office space. In addition, our customers can employ us as their tax representative for France, a service which offers benefits in relation to customs and VAT formalities.

With a total storage area of 6,200 m², Europlateforme has a high-shelf warehouse with space for around 6,800 pallets. The facility includes chemical and cold storage cells. The basement is suitable for storing temperature-sensitive goods. Valuables can also be stored safely.

All these activities are supported by high-performance logistics software.

The proximity of the border and our nearby turnover and warehousing possibilities allow for flexible and effective customs clearance.

The infrastructure surrounding Europlateforme is ideal. On the one hand it is situated in the immediate vicinity of the north-south motorways, and on the other only a few hundred meters from the EuroAirport Basel-Mulhouse-Freiburg and the ports on the Rhine.

International transport and distribution

Europlateforme serves as a hub for international and regional goods transport and distribution:

- > international transport by road, air and sea
- > distribution throughout Europe and Switzerland
- > distribution in particular throughout France
- > groupage freight, full and part load consignments
- > express services and time-definite freight

Warehousing and Logistics

We devise integrated solutions for simple and for complex needs:

- > logistics project consulting and management services
- > warehousing and distribution
- > contract logistics
- > value-added logistical services
- > customer-specific IT solutions

Customs clearance operations

We offer our customers comprehensive customs-clearance services:

- > import/export for France
- > import/export for Switzerland and Germany
- > EU customs clearance
- > transit customs clearance
- > transit and bonded warehouses

Tax representation for France

Any company employing us as their tax representative with the French authorities is in law placed on an equal footing with French suppliers and enjoys many benefits relating to French value-added tax (TVA):

- > invoicing in euro
- > uniform terms of payment for total charges
- > bridge financing of TVA
- > reimbursement of TVA on returns
- > deliveries to other EU member states are tax-free and count as "intra-community deliveries"
