

SCHNEIDER IN SAINT-LOUIS

Europlateforme

We call our logistics platform in Saint-Louis "Europlateforme" for good reason, as it is located at the heart of western Europe, in the borderlands of France, Germany and Switzerland. Close to Euroairport Basel-Mulhouse-Fribourg, it serves as a platform for international transport, Europe-wide distribution, contract logistics and the provision of value-added logistics services. We also offer customs-clearance operations and serve as tax representative for France.

Main activities

Logistics

- Comprehensive logistics solutions
- Logistics project consulting and management services
- Warehouse and distribution logistics
- Contract logistics and value-added logistics services
- Client-specific IT solutions

International and regional transport

- International transport by road, air and sea, as well as express services
- Distribution throughout Europe and in Switzerland
- Groupage freight, full load consignments and time-definite freight in the area where France, Germany and Switzerland meet

Customs Clearance and Tax Representation

- Customs clearance for Switzerland and Germany, and streamlined procedures for France – i.e. time savings at customs
 - Tax representation for France
-
